*To the School Board and Citizens of Albany:*

It is difficult for me to make a very complete report on the Albany School, because my acquaintance with it has been brief and only general in character. I may, however, make an observation and submit the usual statistical data for the school year ending in June, 1942.

The observation I would like to make is to repeat Mr. Fuller's words written in last year's report.

"Mrs. Almee Morrill, who has been our teacher for a number of years, has given the same time and effort to this small school as many teachers have to give to schools two and three times as large. Thus the handicaps of a small school have been amply compensated."

This, to my mind is the most significant fact in connection with your school or any school. I am sure the citizens of Albany appreciate the services of Mrs. Morrill. But did you ever tell her about it?

The total registration at present is 18, somewhat larger than last year. The statistical data follow:

Total registration,	11
Percentage of attendance	97
Tardiness	0
Visits of superintendent	13

Tuition pupils for this year are William Brown, grade 11; John Potter, grade 12; David Potter, grade 10, in Kennett High School; Richard Potter, Grade 5, and Mary Potter, grade 2, in Conway Graded School.

Respectfully submitted,

WESLEY H. DOUGLASS,

Conway February 12, 1943

Acting Superintendent
